# 1 Main goal

Help apartment mates to deal with the daily domestic problems such as payments, failures, timetables etc...

## 2 Application functions

### 2.1 Basic functionality

- Payment manager
- Failures report
- Organize custom timetables
- Indicate anything on a "master" apartment calendar
- Missing stuff

### 2.2 Application functions

- Report the apartment presence periods
- Ask for an apartment zone to remain empty for a certain period

## 3 User interface

- Login/sign up screen
- Join/create apartment screen
- Main screen with "tab" navigation.  
Tab screens:
  - List of all the notifications (chronologically ordered) , differently labeled according to the type - divided in "active" and "archived"
  - "New Action" screen in which you can choose between the different actions
    - \* Here there will be a specific screen depends on the action
  - Master calendar
  - Profile screen

## 4 Mockups
